## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-12, 14-60 are rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential structural cooperative relationships of elements, such omission amounting to a gap between the necessary structural connections. See MPEP § 2172.01. The omitted structural cooperative relationships are: it is not clear how the "first subset of detectors" is structurally related to the other detectors. Perhaps applicant should amend the claims by adding –including a first subset of detectors and other detectors—after "an array" (–including a first subset of detectors and a second subset of detectors-) in line 5 of claim 1, line 8 of claim 27 and line 8 of claim 29. Also, perhaps applicant should replace "a first" before "subset" in lines 10 of claims 1, 27 and 29 with –the first--, and "other" before "detectors" in lines 12 with –said other—(or said second subset-), in order to clearly describe the invention and provide proper antecedent basis. Appropriate correction is required. The dependent claims are rejected by virtue of their dependency on claims 1, 27, 29 respectively.

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The prior art cited in the PTO-892 and not mentioned above disclose related devices and methods.
